

OUR DRY EYE CLINIC IS NOW OPEN!

We are delighted to share the news that we have been working hard behind the scenes to create an in-practice Dry Eye Clinic, and we are finally opening the doors to happier, healthier eyes.

What does this mean for you?

Our practice has joined the Dry Eye Revolution...meaning we have further invested in training, software, innovative products and in-practice treatments to bring you a POWERHOUSE of Dry Eye relief.

Our Eye Care Professionals will provide an in-depth consultation using digital imagery to highlight the problem areas on your ocular surface and visually show you any areas of concern that require targeted treatment.

In-practice deep cleansing treatments and at-home maintenance products will be recommended dependent on the severity of each individual case, and progress will be tracked via follow up appointments and further digital imagery to help you see your progress.

We're dedicated to helping you think better, feel better and live better...one dry eye at a time.

To find out more information or to book an appointment in our brand new Dry Eye Clinic, please don't hesitate to get in touch and a member of our team will be happy to help you with anything you may need.

We hope to see you soon!
